

WHO: Hams/RV'ers from all over the US and Canada. Our members are full-timers, part-timers, and week-enders. Some are no longer traveling and have sold their RV, and some are just beginning their family adventures.

WHAT: Our members have big motorhomes, travel trailers, 5th wheels, pop-ups, truck campers, vans, & more. Each member has at least one licensed HAM in the family from Technician to Amateur Extra.

RALLIES: Our Spring and Fall Rallies have become legends. We call them "Eyeball Rallies". At these Rallies we have all the regularly expected rally activities PLUS seminars, both Ham and non-Ham YL activities and just good ol' family fellowship. We vary the site of the Rallies in an attempt to make them accessible to all Net members.

NEWSLETTER: We publish a quarterly Newsletter that keeps all Net members connected.

WEBSITE: Our secure website is loaded with information of interest to Hams & RVers: rvradionetwork.com.

History: In 1985 a group of ham radio operators who were members of a Good Sam Chapter in San Antonio TX started getting together on an HF net. The net soon became popular with hams all over the country who were also RVers. This group became a club which is today the RV Radio Network.

Officers & Contacts

The best way to contact our officers is to check out the officer page on our website.
